BOOK SYNOPSIS

This book will prepare you for the new mathematics subtest of the MTEL General Curriculum (03) Exam. It has over 50 lessons, 600 practice questions, detailed explanations, and quizzes to cover each of the concepts on the new math subtest, focusing on critical thought and a deep understanding of the topics. This book also includes two comprehensive sample tests. The author has expertise in teaching, math, and the MTEL. Mary DeSouza graduated from MIT with a bachelors and masters in Computer Science and Electrical Engineering and has over 15 years of teaching experience, including teaching MTEL prep courses at UMASS Boston, founding an educational services company in California, designing educational software, and teaching K-adult students in math, science, computers, test prep, and humanities at schools around the world. Please view the website for more information on this book, to contact the author, or to find out about an online review course. www.mtelprep.com
